Dear Members of the Emmaus College Community

The young men and women of our Year 12 class looked magnificent in their suits and gowns at their formal on Saturday night. The pre-formal gathering was attended by hundreds of family and friends who took the opportunity to get photos of the occasion. Despite the rain there was a mood of excitement that permeated the evening. The young people had a wonderful night and were a credit to their parents and themselves. Thank you to Ms Proberts and her committee for their meticulous organisation of the formal.

The ANZAC Day commemoration at the College was a solemn and reverent ceremony fitting the occasion. Many thanks to Mr Jim Short, President of the Jimboomba RSL sub-branch for his address to the staff and students that highlighted the sacrifices made by our Defence Force personnel. Thank you also to Mr Robert Webb and Mr Michael Cox who attended the ceremony as former members of the Defence Force.

Open Day last Wednesday was extremely well attended by over 100 families. There is great interest in the College with prospective families speaking about the reputation of the college as a place of learning and welcome. They talk of a positive atmosphere and students who are friendly, polite and good natured. This is a great testament to you as parents and the important role you have in the nurturing of your children.

If you know anyone who is interested in enrolling their children at the College, please encourage them to do so as soon as possible. Some year levels have very limited space available and may well be full in the very near future.

Kevin Twomey, Deputy Director of Brisbane Catholic Education visited the college on Wednesday morning. His purpose was to acquaint himself directly with the College operations and meet students and staff. He was most impressed with the facilities, the calmness of the campus and the hospitality of the students and staff.

Another class of students from Kisarazu High School, Chiba in Japan will be visiting from 20 to 29 July. The group who came last year enjoyed their time at Emmaus and spoke highly of the friendships they made. This year a bigger group is coming and consequently we need more homestay families to accommodate them. Quite a number of last year’s host families have volunteered again however, we do need more families willing to look after the Japanese students for 10 days. The students come to the College each school day and are involved in a range of activities. Homestay families are reimbursed $230 however you are asked to provide a separate room for the student. Please contact Cathie Cause on 5547 9990 if you can assist.

From Monday 21st May I will be taking 5 weeks’ long service leave. In my absence Steve Adair will be Acting Principal, Liesl Profke will be Acting Head 7-12 and Russel Davey will act in the role of Assistant Principal – Student Welfare. Matt Bergman has been appointed Acting Years 7 & 8 Coordinator. Mr Anthony Barlow will take up the role of Business Manager on 12th June. We warmly welcome Anthony to our community.

Every blessing for the week ahead.

We firmly believe that daily quality learning is the best preparation that students can do.

FROM THE ASSISTANT PRINCIPAL - CURRICULUM & TEACHING: P-6

How often during the day do you use Mathematics across your daily life? I bet the answer is rather frequently. One of the aims of the Mathematics Curriculum is to instil the importance of Mathematics and to develop an appreciation for Mathematics and how this affects our daily life.

This term students have been involved in a variety of Mathematics learning experiences and have covered different strands across P-6. It is wonderful to see students so eager and keen to participate in Mathematics learning. During these learning experiences students have been developing their understanding of Mathematics’ concepts.

Students build their understanding when they:

- Connect related ideas
- Represent concepts in different ways
- Identify commonalities and differences between aspects of content
- Progressively apply the familiar to develop new ideas
- Describe their thinking mathematically
- Develop the relationship between the ‘why’ and the ‘how’ of mathematics

Building students’ knowledge and understanding in Mathematics allows students to apply this understanding to problem solving activities, investigations and everyday situations.

**FROM THE GUIDANCE COUNSELLORS**

Several violent events have recently had high exposure in the media and are likely to be triggering questions or anxiety in many of our children. The Australian Psychological Society (www.psychology.org.au) provides several tip sheets, one of which is re-produced below:

**TALKING WITH CHILDREN ABOUT VIOLENCE AND INJUSTICE**
Parents sometimes feel unsure about how to talk with their children about violence and injustice. A natural reaction is to protect and shield your children from unpleasant and distressing facts; however, the majority of school-age children are aware of events in the news that involve violence. If not acknowledged and discussed, the worries and anxieties of children about these world events can become too frightening and difficult for them to deal with.

Children usually feel less threatened and helpless if parents respond as openly and honestly as possible to their questions and fears. Following are some useful steps that you can use that offer hope to children:

- Always listen first, and listen closely to what the child is asking or saying, to decide if they are seeking factual information, or if the questions are expressing anxiety.
- Allow the child to tell you how they feel. Let them know that it is reasonable to feel angry, depressed, anxious, sad or helpless.
- Find out what the child already knows in case they have mistaken ideas or facts, and correct any misconceptions.
- Keep your answers appropriate to the child’s age, level of understanding, and their emotional maturity. For example, it would be inappropriate to go into details about war with a pre-schooler, however many 12 year olds may need a longer and more detailed discussion of these issues.
- Sometimes it may help to talk about your own feelings and how you have coped, but do not burden the child with anxieties that they are unable to handle. Inform your child that millions of people all over the world are concerned about the problems of violence and injustice and are actively working for peaceful solutions.

**SENIOR FORMAL 2012**

Despite the rain, Emmaus College Senior students dressed ready to impress for their Senior Formal held on Saturday April 28 at Brookwater Golf Club, Brookwater.

Arriving in style and quite quickly, students could not hide their excitement and enthusiasm. From Limousines, to hot rods to the classic “bug” students came ready to enjoy a wonderful night with staff, family and friends.

At 7pm families wished their child a ‘good night’ as the students departed and moved upstairs to the formal dining room which had been beautifully set up in the chosen colour scheme of black and silver.

School Captains, Rebekah G and Nicholas S welcomed the students to their Formal before calling upon Formal Committee member Lacey P to lead the students in Grace.

With dinner and dessert well under way, students were keen to hit the dance floor.

Dancing on until 11pm, the students left with the same smiles and excitement with which they had arrived.

Many thanks to the students on the Formal Committee, in particular Lacey P, Shantell H, Tori E and Brittany C who worked tirelessly in organising invitations, tickets and the final decisions for the set up at Brookwater.

Congratulations to all the Year 12 students and their invited guests.

FROM THE HUB (Support Teacher Inclusive Education)

One of the most important learning goals in early years is to recognize and read a large group of sight words.

Unfortunately some parents may have a misunderstanding of the term sight words.

I hope this may clarify the issue for anyone working diligently at home with their children on their sight word lists.

- Sight words MUST be instantly recognized and said.
- They are NOT to be sounded out at all.
- No gap should be present when saying the words
- If there is any hesitation the child must be told the word immediately.
- These are Sight Words and as such MUST be instantly known without any prompting at all.

There are lots of games which can be played with sight words. Ask your teacher or simply play the old fashioned game of snap. Do this every day.

NO CHILD should advance to a new set of sight words until the previous sets are instantly recognized at least 5-8times in a row.

Hope that clears up any misconceptions.

Parking in the Church Grounds

A reminder to those who park on the grounds of St James Anglican Church are doing so at their own risk. The Parish will not be held liable for damage that may occur to your vehicle or persons.

If you choose to park on the grounds, please ensure that you and your children are being safe at all times. This includes:

- looking after the grounds ie. Not swinging from the trees or digging up the grounds or gardens.
- Driving in a safe manner at all times. Not speeding, and watching for other pedestrians entering and leaving the grounds.
- Parking in the designated areas, and not in the No Parking areas such as the driveway or next to the driveways.

Being able to use the grounds is a privilege and should be treated as such. We do not want to have to ban parking in the grounds and install a gate.

Support-a-Reader Program

Do you have an hour a week that you can use to help children improve their reading skills?

We are looking for volunteers who may be interested in becoming tutors for some of our younger students. The more volunteers we have, the more children we can help.

The Support-a-Reader Program here at Emmaus College, and thanks to the support of a wonderful team of Parents and Grandparents it has been a resounding success.

Many children who had previously struggled with reading, and therefore hated doing it, were later heard making comments such as "I love reading!", "Can I go and read now?" and "Is it my turn to read yet?"

The Support-a-Reader Tutors were very enthusiastic, forming bonds with the students they were helping, and seeing the difference they were making.

The Classroom Teachers loved the program as they could see the difference it was making to many students in their class.

We are therefore very keen to keep this program going and to continue providing that extra support for students.

People who have already trained as tutors can commence straight away. If you let me know your availability I will put your name on the roster and you will be able to begin. I need to know what day/day and time you are available so that I can make up the roster. Once that is done I will send it out to you. Please send me your information in an email or a note (marked with my name on it) to the office as soon as possible.

For people wishing to train as tutors I will be running training sessions later in the term. Training involves attendance at two training sessions (one and a half hours each), here at school. If you are interested, please contact me and let me know which days are the most suitable for you.

If you require further information please contact me.

Yes, I would like to host a Japanese student, but...

Will the student speak any English? Yes. However, as their English skills may be limited, we would ask that you speak clearly and slowly (but not in a patronising way) when communicating with them.

Will I have to cook Japanese food for the student? No. Your Japanese student is here to experience an Australian lifestyle. This includes spending mealtimes with your family, and eating what you and your family normally eat.

Is it OK if the parent/s work full-time? Yes. During these times (e.g. off school), your Japanese student can spend time with your own children. Families who live near each other are encouraged to share transport, or other activities outside of school.

Do we need Blue Cards? No. Blue Card is necessary only when you host an overseas student for more than 10 nights.

If you would like to host a Japanese student this year, please contact:
